

Update your knowledge about horse nutrition, training and behavior by following an ANIVADO online course: Special offer till June 1, 2020.

Many of us are currently affected with the effects of social distancing. Equine professionals, veterinarians and horse lovers can use this period to update their knowledge by online learning. ANIVADO and its associated lecture team announce a special discount offer (10%) that will run from April 10 till June 1, 2020. Please, fill in the promo code ANIVADOSPRING2020 to obtain the discount when you buy the course.

Thus, if you are:

An Equine professional, vet, BSc/MSc student - Interested in equine nutrition? Sign up today and start updating your knowledge and understanding of international horse nutrition by following the Global Equine Nutrition I (GEN I) course (intermediate, BSc 3 level). This course is available in English & Spanish. Course lecturers are Dr. Andrea Ellis and Dr. David van Doorn.

A rider - Interested in how to train horses? Dr Carolien Munsters' Course Basic Sport Physiology of the Horse may be the course of your interest if you are involved in equestrian. This course deals with the basics of equine sport physiology and introduces the use of the heart rate monitor and interpretation of data to optimize your training programme. It's available in English, Dutch and Spanish.

A vet - Interested in equine behavior? Follow our Equine Clinical Ethology course related to Cribbing & Wind sucking, available in English and Spanish. This course is especially made for vets, but equine professionals with a higher professional education may also appreciate the content of this course.

An educational institute - Interested in providing online courses? The ANIVADO platform can connect with other learning managements systems. Therefore, we are happy to discuss B2B solutions with educational organizations who would like to offer or integrate ANIVADO courses.

Please, visit www.ANIVADO.com for more information about these and other ANIVADO courses. ANIVADO offers courses in [English](#), [Spanish](#) and [Dutch](#).
